Sir:

The documents listed on the accompanying Forms PTO-1449 were cited in corresponding applications whose attorney docket numbers are written at the top of each sheet of the PTO-1449s. The chart on the following page allows the examiner to determine the application numbers of the applications in which the corresponding references were cited.

Although the case has already been allowed and the Issue Fee is being paid concurrently herewith, it is requested that the present IDS be placed of record in the file.

Applicants make no statement that the listed art is material to the present case. The art is cited because it was cited in the applications listed in the "Cross-Reference to Related Applications" of the present case. The PTO should already have copies of the cited non-U.S.-patent references in the related cases, and copies of U.S. patent references need no longer be provided in order to ensure official consideration.

The following are related patent applications:
